Re: Off-Site Rule Acceptability Determination  
Prairie View Landfill  
IDEM 71-02

Dear Mr. Nelson:

This letter is in response to your April 11, 2007 letter to William Damico, of my staff, regarding the Prairie View Landfill, Wyatt, Indiana request for CERCLA Off-Site Rule acceptability.

Pursuant to 40 C.F.R. § 300.440 (b), my staff has determined that Prairie View Landfill, Wyatt, Indiana meets the acceptability criteria for cells 4, 6 and 7 and planned cell 5. Cells, 1, 2 and 3, however, do not meet the criteria for acceptability since they are not constructed to meet the RCRA subtitle-D liner and leachate collection requirements. Therefore, Prairie View Landfill, 15055 Shively Road, Wyatt, Indiana is partially acceptable to receive waste from CERCLA sites.

This acceptability determination is based on the assumption that only wastes which comply with the permits issued to Prairie View Landfill, Wyatt, Indiana will be accepted and that CERCLA Off-Site Rule regulated waste will not be disposed of in cells 1, 2 or 3. It is your responsibility to review any proposed waste streams for compliance with the permits for your facility.

Please note that this determination is based on the available information at the time of the review. Your status could be changed any time relevant information becomes available according to the procedures in 40 C.F.R. § 300.440 (d). Generators who need to use a currently acceptable facility should verify the current acceptability of any facilities they wish to use with the appropriate Regional Off-Site Rule Contact(s). If you have questions, please contact Mr. Damico at (312) 353-8207.

Sincerely,

A handwritten signature in black ink, appearing to read "Mary S. Setnicar". The signature is fluid and cursive, with a long horizontal stroke at the end.

Mary S. Setnicar  
Acting Chief, RCRA Branch  
Land and Chemicals Division
